EDUCATION

University of Pennsylvania

Bachelor of Science in Engineering for Computer Science, Minor in Math

Philadelphia, PA

Aug. 2023 – May 2027

EXPERIENCE

Software Development Engineer Intern

Amazon

May 2025 – Aug. 2025

Seattle, Washington

- CS Aqua Team
- First developer on **Network Health Service (NHS)**, building core AWS infrastructure and the **Missed Call Module** to detect calls affected by poor agent network quality
- Created end-to-end pipeline in **AWS CDK** (TypeScript) using **Lambda, API Gateway, and SNS**, plus a reusable internal package for metric calculation and data handling
- Delivered production-ready integration with Amazon CS systems, enabling real-time visibility into agent connectivity issues

Software Development Engineer Intern

Amazon

May 2024 – Aug. 2024

Seattle, Washington

- Customer Interest Experience Team
- Built an **LLM-powered widget title generator** using **AWS SageMaker, Bedrock API**, and prompt engineering, generating optimized titles for 10,000+ customer queries to boost engagement on Amazon.com Gateway
- Developed **Spark SQL Cradle jobs** and contributed to the end-to-end widget architecture from backend pipelines to frontend integration
- Won **3rd place** in internal F2C Hackathon (Operational Excellence division) with “IMReady,” using service metrics and an LLM to recommend cost-effective EC2 instance configurations

Research Assistant

Voice of Calling NPO

May 2022 – June 2023

Northridge, CA

- Developed **AtaxiaV**, a rehabilitation and evaluation platform for Ataxia patients using **Unity** and **Leap Motion Controller API** to recreate physical therapy exercises in 3D
- Designed **augmented reality algorithms** for interactive rehab activities, increasing patient engagement
- Presented at the **International Congress for Ataxia Research** and won **1st Place** in the CA-33 Congressional App Challenge

Software Engineering Intern

Softzen, Inc.

June 2022 – Aug. 2022

Seoul, Korea

- Contributed to **SOLVE**, a VR special education game for children with special needs
- Redesigned and optimized the **tablet UI** for mobile devices in **Unity**, improving accessibility and usability

AWARDS/CERTIFICATES

Amazon Future Engineer Scholarship: \$40,000 for college, Received April 2023

AWS Cloud Practitioner Certificate: Earned Jan 2022

Microsoft Technology Associate: Introduction to Computer Programming Using Java, Earned June 2022

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript, TypeScript, HTML/CSS

Frameworks: React, Node.js, AWS CDK, JUnit, Unity

Developer Tools: Git, Docker, AWS (Lambda, API Gateway, SNS, SageMaker, Bedrock), VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Spark, Cradle

Libraries: pandas, NumPy, Matplotlib, TensorFlow, Keras, BERT

Technologies: AR/VR Development, Leap Motion Controller API, Prompt Engineering, LLM Integration
